

## GB09: Artists Forum - 'More' Info

This years Artists Forums are evening events for established and emerging artists/photographers/filmmakers who do not have access to regular feedback and feel they would benefit from some specialist and peer-led critique of their work. The events provide a chance for artists to experience speaking about their work in public, to articulate concerns, aims and plans for their work and to ask opinions in an open and honest environment. All are welcome to attend, view the artworks/projects presented and partake in the discussion. Feedback from the audience is a vital part of the event, enabling dialogues, peer-to-peer relationships and networks to develop.

### **Format**

In order to reflect the many disciplines and applications within the visual arts, each Artists Forum will be tailored to explore diverse approaches and practices through a variety of media. An artist, curator or industry professional will Chair each event.

Two or three artists will be selected for each event. The events will take place on Friday & Sunday evenings in the 'the hub', the Visual Arts & Literature venue, giving all participants approx' 20-30 minutes to present and discuss their work.

### **Submission Process**

The Artists Forums are designed to explore particular theoretical issues pertinent to the processes of individual artists/practitioners. Work will be shown in digital format, projected on each session.

To participate in an Artists Forum please read and follow the ['Submissions Policy'](#) carefully or email if you need further information or assistance.

We aim to reply individually to each application. If selected you will be informed at least two weeks in advance of the event, if you have not heard by then please assume you have not been successful on this occasion.
